## EXPERIENCE

- **Ecurie Aix** **2026 - Present**
  - Designing and manufacturing low voltage component packaging this season
  - Manufactured CFRP monocoque of the car last season

- **GreyB Research Pvt. Ltd.** **2 years 2 months**
  - Software Development Engineer **Mar 2024 - Sept 2025**
    - Worked on AI assisted prior art finding tools (these were mostly API based), Links: PQAI, InspireIP, and Slate R&D
    - Upgraded legacy stack, set up and managed CI, CD, disaster management.
  - Research Analyst **Jun 2023 - Feb 2024**
    - Analyzed and tested the latest advancements in sustainable packaging materials
    - Prepared landscape reports summarizing patents, research papers, and in-house product testing in various domains - SOFC, Packaging, Agricultural Machines etc.
    - Performed comparative assessments of emerging materials using in-house testing and external scientific literature.

## EDUCATION

- **M.Sc. Materials Engineering (International Profile)** - RWTH Aachen **(2026 - Present)**
- **B.E. Mechanical Engineering (8.29 CGPA)** - CCET, Panjab University **(2019 - 23)**
- **12th Standard (75.8 %)** - GMSSS 23, Chandigarh **(2017 - 19)**
- **10th Standard (9.2 CGPA)** - GMSSS 23, Chandigarh **(2016 - 17)**

## INTERNSHIPS

- **Research Analyst at GreyB Research Pvt. Ltd.** **(Jan'23-Jun'23)**
  - Analyzed emerging technologies and developed patent landscape reports across SOFC, sustainable packaging, agricultural machinery, and other domains.
- **Mechanical Engineering Intern at Regal Bathroom Fittings Pvt. Ltd.** **(Jul'22-Aug'22)**
  - Participated in end to end manufacturing of water taps from casting to finishing
  - Did quality assurance and testing of water taps
- **Student Assistant at CCET** **(Jul'21-Aug'21)**
  - Worked on structural integrity of 3d-printed objects
  - Wrote backend of a 3d-printing software for handling printing materials at scale
